(U//FOUO) During the 2016 NFL Season, demonstrators gained unauthorized access to a restricted area at US Bank Stadium in order to hang a banner in support of the #NODAPL cause against pipeline construction in North Dakota. Currently, protests routinely occur in Minnesota against the replacement of the "Line 3" Enbridge pipeline through northern Minnesota. Given previous protests against pipeline activity, the MNFC assesses the likelihood of anti-pipeline demonstrations near or at US Bank Stadium is likely.

(U) Appendix A: National Terrorism Advisory System Bulletin

National Terrorism Advisory System

# Bulletin

[www.dhs.gov/advisories](http://www.dhs.gov/advisories)

May 9, 2018 2:00PM EDT

## SUMMARY OF TERRORISM THREAT TO THE U.S. HOMELAND

Since 2015, the Department of Homeland Security (DHS) has used this Bulletin to highlight the continuing terror threat to the U.S. Homeland. The United States is engaged in a generational fight against terrorists who seek to attack the American people, our country, and our way of life. An informed, vigilant and engaged public remains one of our greatest assets to identify potential terrorists and prevent attacks.

### DURATION

This Bulletin will expire on **September 14, 2018** at 1:00 PM EDT

## ADDITIONAL DETAILS

- We continue to face one of the most challenging threat environments since 9/11, as foreign terrorist organizations exploit the Internet to inspire, enable, or direct individuals already here in the homeland to commit terrorist acts. Homegrown terror suspects increasingly rely on technology, such as end-to-end encrypted social media applications, to avoid detection.
- Terrorist groups are urging recruits to adopt easy-to-use tools to target public places and events. Specific attack tactics have included the use of vehicle ramming, small arms, straight-edged blades or knives, homemade explosives, and poisons or toxins.
- Some terrorist groups overseas are using battlefield experiences to pursue new technologies and tactics, such as unmanned aerial systems and chemical agents that could be used outside the conflict zones. Additionally, terrorists continue to target commercial aviation and air cargo, including with concealed explosives.
- Violent extremist media encourages individuals worldwide to launch attacks using all means possible. Continued U.S. and partner successes in disrupting and defeating terrorists on the battlefield may encourage homegrown terrorists to carry out acts of violence in the homeland instead of attempting to travel overseas to fight or in retaliation for apparent losses.
- Additionally, foreign terrorist fighters who have acquired training and battle-tested terrorism experience may flee from terrorist-controlled territories with a desire to conduct attacks elsewhere, including the United States.

### TYPES OF ADVISORIES

#### Bulletin

Describes current developments or general trends regarding threats of terrorism.

#### Elevated Alert

Warns of a credible terrorism threat against the United States.

#### Imminent Alert

Warns of a credible, specific and impending terrorism threat against the United States.

## U.S. GOVERNMENT COUNTERTERRORISM EFFORTS

- DHS and the Federal Bureau of Investigation (FBI) continue to provide guidance to state, local, tribal and territorial partners related to the current threat environment. DHS also partners closely with the private sector to provide risk assessments and coordinate security measures with business owners and operators. The public may continue to observe law enforcement and security activity in and around public places and events.
- DHS protects the homeland from terrorism by working closely with the FBI and other intelligence partners to detect and disrupt terror suspects, putting in place additional screening and vetting measures to identify suspicious travelers and cargo, combating violent radicalization and terrorist recruitment in our communities, monitoring emerging threats, and engaging with foreign partners.
- More broadly, DHS remains committed to preventing violence and threats meant to intimidate or coerce specific populations on the basis of their religion, ethnicity or identity.

## HOW YOU CAN HELP

- Report suspicious activity or information about a threat, including online activity, to fusion centers and the FBI's Field Offices – part of the Nationwide Suspicious Activity Reporting Initiative.

- [Connect, Plan, Train, and Report](#) to prepare businesses & employees. Security tools/resources can be accessed through the DHS's [Hometown Security Campaign](#).
